Release 2.1.5

Release Information

Version	2.1.5
Date	Oct 30, 2022
Work Items	1089, 1100, 1143

New Features

- 1089 – Added support for agentless log collection (Processing of events received through windows event forwarding)

Bug Fixes

- 1100 – Added support for Windows 10 version 1507
- 1143 – Windows Agent failed to start on a rare scenario where huge number of logs (~ million) generated when it is offline.

Known Issues

- Nil

Release 2.1.4

Release Information

Version	2.1.4
Date	June 28, 2022
Work Items	900

New Features

- Nil

Bug Fixes

- 900: Windows Agent: Sporadically stops collecting event logs.
 - The issue is external to the syskey of agent. i.e., A file write operation is not honored by the operating system within the expected time and it sometimes corrupts the data written into the file. Most probably caused by anti-virus or application control software. We pinpointed the affected area but unfortunately unable identify why exactly it happened.
 - Fix is implemented to gracefully identify and handle that failure situation by retrying the affected operation. Which is working as expected in simulated environments.

Known Issues

- Nil

Release 2.0

Release Information

Version	2.0.12
Date	April 01, 2022
Work Items	541, 660, 825

New Features

- 660: Migrated to latest LTS version of .NET 6.0
- 541: Branding change from Scribbler Windows Agent to SyskeyOT Windows Agent

Bug Fixes

- 825: Few event logs got missed during system boot
 - Added support for event bookmarking so that windows agent able to collect logs which are generated when it is not running.
 - Applicable only to Windows Event Log

Known Issues

- Nil

Release 1.4.23

Release Information

Version	1.4.23
Date	June 16, 2021
Work Items	494

New Features

- 494 - Add support for specifying custom hostname/ip for syslog forward

Bug Fixes

- Nil

Known Issues

- Nil
